

Easy, efficient and reliable process for UCITS KIIDs and EMTs

OVERVIEW

Providing investors with critical information is not just good service. It's a regulatory requirement. We understand the challenges of managing Key Investor Information Documents (KIIDs) and make the process easy, efficient and reliable — from composition to distribution. Let us help you meet your regulatory obligations and stay ahead of ever-changing global regulations.

SOLUTION

Our comprehensive, end-to-end KIID outsourcing solution includes proactive management, professional expertise, cost-effective processes and rigorous evidential control systems to support you from pre-production through to compliance monitoring. Our solution provides complete support for all aspects in the calculation, creation, maintenance and document distribution of UCITS Key Investor Information Documents and European MiFID Templates (EMTs) in all jurisdictions.

KEY FEATURES

- End-to-end delivery of your KIID and EMT requirements, from calculation to document production and translation.
- Collection, storage and distribution of Key Regulatory Documents (KRDs) across the industry.
- Ongoing ingestion and calculation of the data sets required to calculate risk, performance and costs.
- Complete translation and localisation of your documents as required.
- Rapid distribution of large volumes of accurate documents in multiple languages.
- Fund data is stored in our centralised data platform, allowing you to efficiently broaden the regulatory solutions you hold with us, with no additional data requirements.
- All calculations, regulatory filings and disseminations are completed by us. By utilising our KIID and EMT solution there is no need for additional third-parties, keeping things simple.
- Compliance monitoring is undertaken, and notifications sent when updates are required.
- In the all-important annual KIID update there is no last-minute panic with us. We work with you to have all changes integrated at the end of the year, allowing you the time you need to complete your final review ahead of the deadline.
- Working in partnership with Virtu our portfolio transaction cost calculations are enhanced with arrival price data making our EMT production more accurate.

BENEFIT FROM OUR EXPERTISE

Our experience in the production and distribution of UCITS KIIDS and EMTs is extensive. We have been involved in delivering solutions for clients since both regulations were implemented.

We actively engage in industry working groups and forums to ensure that we are always up to date and prepared to react to regulatory changes quickly and accurately, supporting you in meeting the latest regulatory guidelines.

Reduce risk with our data validation process which allows both manual and automated inspections of any data changes.

Benefit from increased operational and cost efficiencies across your business with Broadridge FCS as your single digital platform, supporting all of your data, documents and regulatory reporting needs across the life cycle of funds. By outsourcing with us you can release internal resource and focus on growing your business.
