

# Making every shareholder vote count

Be part of the global proxy revolution

## The investment landscape is evolving

Investor priorities and behaviours are changing. New regulations aim to increase engagement between issuing companies and their shareholders.

Shareholder meetings and voting are now at the centre of the investor communication chain, giving investors a voice.

### Investors today demand more:

More control over financial returns

More impact on how the companies they invest in are run

More focus on good corporate governance and ethical values

More speed and transparency of communication

## At the heart of the global proxy voting ecosystem

Broadridge is a neutral and independent proxy service provider, committed to bringing transparency to the shareholder voting network.

Financial institutions, global custodians and other voting platforms connect with our infrastructure, which joins the dots between issuers and investors around the world.

**Broadridge**

## Make sure that every vote counts

No more manually reconciled votes, inefficient process chains or narrow research windows, which lose time, reduce accuracy and increase the scope for error.

Our solution supports every stage of the proxy voting process, facilitating engagement between issuers and investors.

We ensure millions of votes are delivered to the right place, at the right time, every day.
