Making every shareholder vote count

At the heart of the global proxy voting ecosystem

110+ markets we operate in
98% covering 98% of AUC for the world's largest global custodians
2bn investor communications processed every year
50+ leading global custodians rely on our solutions

Get ready for next generation shareholder voting

Make sure that every vote counts

No more manually reconciled votes, inefficient process chains or narrow research windows, which lose time, reduce accuracy and increase the scope for error.

Our solution supports every stage of the proxy voting process, facilitating engagement between issuers and investors.

We ensure millions of votes are delivered to the right place, at the right time, every day.

Partner with Broadridge

The leading global provider of proxy voting and shareholder engagement technology.

Broadridge brings together unrivalled proxy voting technology and infrastructure, deep knowledge and experience of local markets, and an intimate understanding of the participants involved at every stage of the communication chain.

Features:
- Powerful Scalable Secure

- ~100% Near 100% client retention

We bring together unrivalled proxy voting technology and infrastructure, deep knowledge and experience of local markets, and an intimate understanding of the participants involved at every stage of the communication chain.

Our solution means voting is

- Fast
- Transparent
- Accurate
- Cost efficient
- Reduced risk
- Innovative

Thanks to infrastructure and technology that is

- Golden agenda
- The voting period is extended
- Meeting quorum is tracked in real-time
- Data can be accessed at any point throughout the voting period
- Operational efficiencies are gained through direct voting and clear entitlement calculation and tracking
- Regulatory identification and processing happens without delay

Making every shareholder vote count

Be part of the global proxy revolution

More control over financial returns
More focus on good corporate governance and ethical values
More impact on how the companies they invest in are run

The investment landscape is evolving

Investor priorities and behaviours are changing. New regulations aim to increase engagement between issuing companies and their shareholders. Shareholder meetings and voting are now at the centre of the investor communication chain, giving investors a voice.

Investors today demand more:

- More speed and transparency of communication
- At the heart of the global proxy voting ecosystem

Broadridge is a neutral and independent proxy service provider, committed to bringing transparency to the shareholder voting network.

Financial institutions, global custodians and other voting platforms connect with our infrastructure, which joins the dots between issuers and investors around the world.

100% of the top 25 global custodians rely on Broadridge for their global proxy voting needs.

At Broadridge, we are transforming the proxy voting process by investing in innovative new services, functionality and technology.

With our blockchain solution:

1. Sourcing of meeting agendas
2. Agenda translation and distribution
3. Entitlement calculations
4. Integrated research and analytics
5. Vote processing and execution
6. Tracking of meeting results
