

NYFIX

BROADRIDGE PROVIDES LOW-LATENCY, RESILIENT AND SECURE CONNECTIVITY BETWEEN TRADING COUNTERPARTIES

By connecting to NYFIX, financial institutions gain membership for near real-time access to one of the largest independent FIX order routing networks (ORN).

Our easily accessible global network links counterparties and venues across a full range of asset classes for all aspects of the trade lifecycle.

Our NYFIX portal, a dedicated application portal designed for the NYFIX community, complements the network by offering access to additional value-added services.

RELIABLE AND SECURE PLATFORM

Through our continued investment, NYFIX combines technology and network infrastructure to deliver uninterrupted service with consistent performance.

- Resilient, ISO certified, secured infrastructure
- Heavily relied upon by the largest banks and institutions for critical messaging
- Matrix architecture provides industry leading reliability and scalability

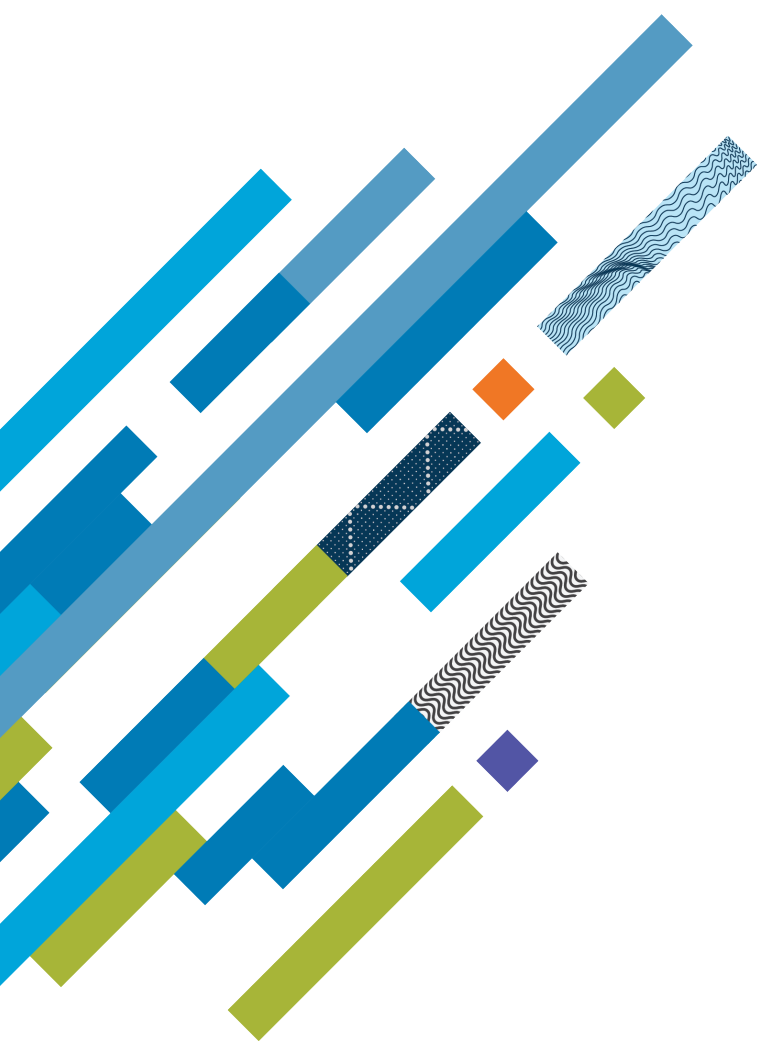

GLOBAL NETWORK FOR EXTENDED REACH

One of the industry's largest order routing networks, NYFIX is continually expanding its global community of participants and partners.

- Connects more than 1,700 buy-side and sell-side firms globally
- Services more than one-third of all spoke-and-hub ORN traffic
- Regional hub locations within the Americas, EMEA, and APAC
- Supported during all major market hours, whether you trade on Sunday in Tel Aviv or Saturday in Taiwan

SERVICE DELIVERY MODEL EXPERTS

- Pioneers in the FIX industry being the original FIX order routing network
- Anchored by a global connectivity management team cumulating decades of experience
- Dedicated resources for all aspects of client onboarding.
- 24/7 multi-language support available by phone, email and chat

NYFIX PORTAL

OUR EXCLUSIVE SERVICES HUB
