

Broadridge Solutions for Data Analytics and Visualization

Generate the reports and views you and your clients require.

This award-winning, sophisticated reporting solution is dashboard-based and customizable to specific user needs. Gain immediate access to critical business information on portfolio activity, investments, P&L, exposure

and more. Configurable 'widgets' enable you to generate eye-catching, interactive charts and data grids with full drill-down capabilities. Choose web, mobile or tablet-based functionality for convenience and ease of use.

Named "Best Data Visualization Software Provider" by Hedgeweek two years in a row
