## Portfolio Construction

The Growth Fund is an asset allocation fund whose primary objective is growth of capital with some consideration for income. The Fund is invested in a diversified mix of underlying vehicles including mutual funds, ETFs, stable value and other pooled funds. The Growth Fund typically invests 75% of its assets in equities, a portion of which is allocated to international equities and real estate, and 25% in bonds, a portion of which is allocated to international bonds, stable value funds, and cash vehicles. Tactical changes may be made to take advantage of valuation opportunities from time to time. To ensure the Fund's strategy remains consistent, the allocation may be rebalanced when it deviates significantly from strategic targets. Investors in this fund should be willing to accept fluctuation in value and be able to tolerate the market risk that comes from the volatility of capital markets.

The underlying investments will use a combination of passive and active strategies and will be evaluated on a regular basis.
