## Portfolio Construction

The 2060 Fund seeks to invest primarily in equity mutual funds to be broadly diversified across and within domestic, international and emerging markets asset classes. The Fund will strive to maintain such an asset mix, depending on the prevailing market conditions, until approximately 10-20 years before the stated target date. Once the Fund is within the final 10-20 years of the target date, the Fund will seek to reduce risk on a periodic basis by adjusting the Fund's ratio of equity to fixed-income mutual funds downward as the target date approaches. Upon the target date, the Fund will seek to achieve an asset allocation of 30% equity mutual funds and 70% fixed-income mutual funds.

## Investment Philosophy

The StarPath Funds® investment philosophy is based on the following core beliefs for equity investing: Diversification reduces risk; Markets are efficient; Asset allocation is the key determinate of portfolio returns; Passive management is superior to active management; Asset class investing is superior to indexing. Rogers' core beliefs for fixed-income investing include: Invest in high-quality, investment grade fixed-income securities and keep durations and maturities short to intermediate.
