Portfolio Construction

The Moderate Fund is a strategic asset allocation fund that invests in a diversified portfolio through the use of mutual funds, ETFs, individual securities and other pooled funds. The primary objective of the fund is current income and moderate long-term capital appreciation. The Moderate Fund will typically allocate approximately 40% of its assets in a combination of U.S. and foreign equities, and 60% in bonds, a portion of which can be allocated to international bonds and cash vehicles. The Moderate Fund may also have an allocation to Real Estate, Commodities, or other alternative strategies to help it pursue its investment objectives. The Moderate Fund is designed for those investors seeking a portfolio with moderate risk and medium growth potential.

Investment Philosophy

The Matrix Trust Company sponsored Strategic Roadmap Portfolios are a series of risk-based CIFs designed to provide retirement plan participants with broadly diversified portfolios that align with their own risk profile and time horizon. Steele Capital Management, the subadvisor to these funds, embraces strategic asset allocation using multiple asset classes and strategies. For additional information, go to www.steelecapital.com.
