The TOPS Target Portfolio 2035 seeks to provide growth of capital by investing primarily in ETFs and other index-based vehicles that invest in common and preferred stocks, corporate and government bonds, real estate, and natural resources securities. The TOPS Target Portfolio 2035 places a greater emphasis on equity, real estate, and natural resource investments than fixed income investments. The TOPS Target Portfolio 2035 may be appropriate for investors with long-term investment horizons who are willing to accept a relatively high level of volatility in exchange for potentially higher investment returns. As the stated target date approaches, the TOPS Target Portfolio 2035 will place a greater emphasis on fixed income investments than equity investments.

#### **Principal Risk**

Performance information reflects past performance and does not guarantee future results. All returns are net of any fees that accrued within the fund, for more information on the fees please visit the fund's web page noted above. Investment return and principal value will fluctuate such that shares, when redeemed, may be worth more or less than their original cost. All returns that exceed 12 months are annualized.
